

# Transcript – Tutorial: Opening a Stonewall Learning unit on your phone

[Text on the screen says ‘Opening a Stonewall Learning unit on your phone’. It then changes to show a phone screen. The screen shows the module menu for ‘Supporting LGBTQ+ Children and Young People’. There is a list of units, each of which have a ‘launch unit’ hyperlink underneath. Units C, D and E are greyed out and no hyperlink is available for them.]

Speaker: In this video we're going to look at opening a unit of Stonewall Learning on your phone. So when you're logged in and in your module, scroll down until you click launch unit.

[The screen changes to show a new window in the browser, with writing which says ‘The content window has been blocked by your browser. There is a ‘show window’ button.]

Speaker: It'll show you a new window. Click open in new window then your content will load.

[The screen goes white and then a page from a Stonewall Learning unit appears.]

[Text on the screen says ‘Allowing pop-ups in Safari’. The screen changes to show a phone settings menu. It scrolls to show the title ‘Safari’.]

Speaker: If you're on an iPhone using Safari, the first thing you need to do is go to your phone settings, scroll down and find Safari.

[The screen changes to show a menu of options related to Safari settings. The menu is shown scrolling down and stops when a 'Block Pop-ups' option becomes visible. There is an on off button, with green to indicate it is switched on.]

Speaker: Scroll down in that menu and unselect block pop-ups.

[The on off button moves into the 'off' position.]

[Text on the screen says 'Allowing pop-ups in Chrome'. The screen changes to show a phone screen with an open Browser. The screen shows the module menu for 'Supporting LGBTQ+ Children and Young People'.]

Speaker: In Chrome on an iPhone, click the three dots which show you your menu.

[The Chrome menu appears from the bottom of the screen. The menu is seen scrolling and stops when it reaches 'settings'.]

Speaker: You scroll across to settings.

[The Chrome settings menu appears. The menu is shown scrolling down to 'content settings'.]

Speaker: In your settings, you're going to click content settings.

[The screen changes to show the content settings menu. At the top of the list is a 'Block Pop-ups' heading which is labelled 'On'. The screen

then changes to the 'Block pop-ups' menu. There is an on off button, with blue to indicate it is switched on.]

Speaker: Click on block pop-ups untab it, so unselect it, and then click done.

[The on off button moves into the 'off' position.]
